
Searches (grey/academic)
System: {supply chains}
Product: {forest commodities}
Concept: {collective action} for {sustainability}
Screening prompt (abstract)
System: {supply chains}
Product: {forest commodities}
Concept: {collective action} for {sustainability}
Include
Mechanism database (ontology)
Mechanism coding (abstract)
Which mechanisms?
Case prompt (abstract)
Does the abstract mention cases? If so, how many?
Include
Case data extraction (full text)
Case database
Case prompt (full text)
Do the cases represent sustainable collective action?

Searches completed so far

Search	**Unique results (/all hits)**	**Relevant abstracts (/screened)**	**Cases (/full texts)**
{collective action} AND {food supply chain}	196 (/512)	170 (/196)	36
{supply chain} AND {sustainability} AND {forest commodity}	50,289 (/79,539)	243 (/5,028 10%)	95 (/69)

Phase 1 Development and testing

1. **Targeted search**
   {collective action} AND {food supply chains}
2. **Collective action & sustainability**
   Abstract-level eligibility assessment
3. **Mechanism ontology testing**
   Abstract-level coding
4. **Case extraction**
   Abstract-level case assessment and full text data extraction

Inputs: Draft ontology
Abstract screening prompt
Mechanism coding prompt
Case identification prompt
Full text data extraction prompt
Case confirmation prompt

Outputs: Mechanism ontology prompt
Candidate mechanisms
Case database

Phase 2 Application and development

1. **Human review**
   Assessment of ontology, candidate mechanisms, cases and case data
2. **Expansion search 1**
   {supply chain} AND {sustainability} AND {forest commodity}
3. **Expansion search 2**
   {supply chain} AND {sustainability} AND {oil and gas}
4. **Expansion search 3**
   {supply chain} AND {sustainability} AND {fisheries}
5. **Human review**
   Assessment of ontology, candidate mechanisms, cases and case data

Inputs: Draft ontology
Abstract screening prompt
Mechanism coding prompt
Case identification prompt
Full text data extraction prompt
Case confirmation prompt

Outputs: Mechanism ontology prompt
Candidate mechanisms
Case database

Outputs

1. **Finalised ontology**
   Database of hierarchical mechanisms
2. **Case database**
   Sustainability collective action cases
   Flagged brightspots
3. **Interactive dashboard**
   Map of confirmed cases, filtered by sector
4. **Full transparency**
   Evidence synthesis pathway fully documented and auditable
